

# Porirua Campus Redevelopment Update

## Concrete floor slabs to be poured

The first of five programmed concrete floor pours will start on Monday 30 April 2012, as part of the building programme, for Building 1 of the Porirua campus redevelopment. These concrete floor pours will continue throughout May.

Concrete trucks will be coming onsite, through the main carpark, from 5am on Monday through until around 7.30am.

The concrete ground pours will be weather dependent. We will send a reminder of this tomorrow and advise of any changes to the present plan.

If you have any questions regarding this please email [marketing@whitireia.ac.nz](mailto:marketing@whitireia.ac.nz)

## The master plan
